OUR BEER

At Dieselhaus, the beer comes from Hofbräuhaus Traunstein. First documented in 1612, the brewery is now one of Bavaria's leading names in brewing. Centuries of experience can be tasted right up to the head.

The family-run brewery near the Austrian border relies on pure craftsmanship and open fermentation. From the distinctive malt aroma and fine hop and yeast notes to the velvety texture, every sip is a complete work of brewing art. In 1982, Traunstein made headlines with the world's first draught wheat beer. We serve it the same way here - fresh from the tap and brought to your table.

Original Wodden Barrell

Our HELLES from the wooden barrel has less carbonation and is especially smooth. It flows slowly, fresh and cool, driven only by its own weight - giving it its distinctive mild character. Tapping a wooden barrel is the highlight of Bavarian beer culture. Filled by hand just as it was centuries ago, our 10, 20 and 30-litre barrels can be tapped right at your table with stoneware mugs, tap and wooden mallet.
