

Beer

Lager

Brilliant light yellow color, clear, glossy appearance, clear malt aroma, underlaid with pleasantly light hop and yeast notes. A wonderful pale ale, harmonious, full-bodied and wonderfully balanced.

Zwickl

A naturally cloudy, velvety pale beer like from great-grandfather's time. From the cool depths of the lager cellar. Harmonious, with a dynamic, fresh malt and hop aroma.

Wheat beer

Honey-colored and with all the power of our own yeast. Wonderfully refreshing, with a soft yeast bloom and full fruit aroma. Our masterpiece, in which all our passion and over 400 years of brewing experience.

Dark lager

A decidedly malty, not too sweet sweet beer with comparatively little alcohol, a dark red to chestnut brown color - and a delicate hint of chocolate.

Tap your own beer yourself!

Original wooden barrel

Our HELLES from the wooden barrel has a lower carbon dioxide content, making it especially smooth and easy to drink. It flows slowly and with the pressure of its own weight, fresh and cool from the barrel, which is responsible for its special mildness.

Tapping from a wooden barrel is the highlight of Bavarian beer culture. Carefully bottled by hand as it was hundreds of years ago, 10, 20 and 30-barrels can be tapped with stone jugs, tapping equipment and wooden mallet directly at the table.
